

Kingston Horticultural Society – Data Protection (GDPR)

Kingston Horticultural Society (KHS) asks for and keeps contact details for its members, and KHS undertakes to ensure that this information is kept up to date, secure, and is only used as stated and required.

Personal details:

Members are asked to complete a membership application form with contact details of name, address, telephone number, and email address. Members are asked to complete the application form to confirm their continued membership each year.

Data use:

This data is used by KHS to send members newsletters, invitations to events, or to contact and inform members about specific KHS events and activity.

Personal consent:

The membership form will also ask applicants to confirm that they are happy for KHS to retain and use their details for the purposes as stated. Members can request to check the details we hold for them, or ask for their details to be deleted at any time. Data for anyone not continuing membership will be deleted.

Data security:

Your details will be kept securely, and the full list is only accessible to members of the committee, and will never be passed on to others. The shop retains a membership name check-list only.

Please note that it is essential that all members ensure KHS have their up to date details, and that they confirm their consent for KHS to retain and use their details for the duration of their KHS membership.
